Profile:

Energetic, hard-working developer, interest in obtaining a position enabling me to utilize my teamwork abilities and technical skills that offers growth and advancement opportunities.

- Currently pursuing Amazon AWS Certified Solutions Associate

Work Experience:

- **Web Developer** (Jan 2018 - Present)
Kanetix Ltd., Toronto, ON
 - Writing clean code with an eye towards performance and maintainability
 - Analyzing requirements, wireframes, and APIs of related applications to propose integration solutions
 - Assisting team in creating requirements, estimating the effort, and planning sprints
 - Using various modern tools and technologies: PHP (Codeigniter, Symphony2), AngularJS and Python (Django) to create back-end and JavaScript (Vue.js, JQuery) for the front-end
 - Helping new developers to get up to speed with the technology stack used by the company
- **Web Analyst** (Sept 2017 – Dec 2017)
West Corporation, Toronto, ON
 - Developed websites using a mix of HTML, CSS, JavaScript, jQuery along with company's proprietary Content Management System
 - Collaborate with Senior Developers / Solution Architects, designing components and develop quality websites following standards and ensuring robust unit testing
 - Documented technical process steps for completing commonly occurring content migration tasks
 - Reduced the average number of open tickets in queue to 20 from 45 minutes
 - Created effective test scripts that cut testing times from 9 minutes to almost instant using JavaScript

Skills and Abilities:

- **Languages:** Java, Python, C#, PHP
- **Frontend:** HTML, CSS, JS, AngularJS, Vue.js
- **Backend:** Django, Node.js, MySQL, Oracle, MongoDB, Firebase
- **Tools & Software:** Bash, Git, Docker, Kubernetes, Visual Studio, DialogFlow, JIRA, Vagrant, MailChimp, Act-On

Education:

- **Sheridan College – Davis Campus, Brampton ON** (2015 – 2017)
Computer Systems Technology – Computer Programmer
Graduated with honors, GPA: 3.8/4.0
